DATLEX

Our Background

DATLEX NIGERIA LIMITED is an Engineering and Security Consultancy firm and has been in the business of designing, construction as well as fabrication, procurement, installation and maintenance of various security devices, office equipment, automation and the provision of IT business continuity solutions including offsite data storage and on-line backup through its tape guard and live vault products.

Digital Surveillance System

Digital Surveillance System is a total solution for remote monitoring and digital recording designed to fulfill every contemporary video surveillance requirement which offers excellent performance on video transmission through TCP/IP and telephone networks.

Both live and recorded video can be viewed at anytime, anywhere.

DATLEX

CCTV System

INTREPID™ *Perimeter Intrusion Detection System* combines patented Southwest Microwave technology with microprocessor power and laptop computer convenience. It is a sophisticated perimeter security system which provides precise location of alarms.

Features:

MicroPoint™ Detection and Assessment locates intrusions to within 3 meters (10 feet).

Point Impact Discrimination recognizes and suppresses distributed disturbances.

Sensitivity Leveling automatically compensates for fence variations to equalize entire perimeter.

- Free Format Zoning sets the zones in software and is independent of cable length or equipment location.

- MicroPoint cable provides detection, power distribution and data communications for the entire system.

- Windows® based INTREPID Site Manager with

- Site Design Tools and Installation Support Tools included.

- INTREPID Map Monitor software with precise intrusion location displayed in color graphics, or Perimeter Security Manager with high-level interface to CCTV systems and auxiliary devices.
- Auxiliary sensors and devices are powered and controlled by the system.
- One Processor Module protects up to 1310 Feet, (400 meters) of perimeter.
- Multiple Processor Modules can be connected together for larger lengths of perimeter.
